

REPORT BUILDER 6.3

Easy to use dynamic database reporting. Turn your data into business intelligence.

Turn Data Into Business Intelligence
Report Builder is an easy to use, dynamic reporting tool that enables on-demand report creation to improve your business intelligence. Organizations are always searching for ways to transform data into valuable information to enable better decision-making. Report Builder affords organizations of any size the competitive advantage of working smarter and more effectively.

Work Smarter

Today, most organizations face the challenge of getting more done with fewer resources. Report Builder enables employees to acquire information efficiently while improving their overall decision-making processes through intelligent insight.
